DIRECTOR STATEMENT

We are a proud Indonesian national brand, leading through quality and competence in the international market. Indoderco stands for "Indonesia Powder Coatings."

We demonstrate our commitment to showcase Indonesia's industrial competency and leadership in the domestic market.

With over 14 Years of experience and more than 300 Active Customers, Indoderco continues to strengthen its position in the industry.

Indoderco has established a strong and trusted market presence. We continue to grow by delivering consistent quality, responsive technical support, and reliable powder coating solutions that meet the evolving needs of various industries.

Timeline

PT Indoderco's long journey began with a strong foundation:

1993 1993 The founder's history dates back to the establishment of PT Cadas Jagat Raya. The company specializes in powder coating applications across various industries, with a capacity of five conveyor lines.

2012 To support the ever-growing demand for reliable powder coating solutions, PT Indoderco Semesta Raya was established.

2017 Indoderco initiated a collaboration with PT Cadas Jagat Raya for research purposes, aiming to enhance product quality and provide technical support for Indoderco's customers.

2022 Indoderco began expanding its sales to Central and East Java.

2025 Indoderco obtained ISO 9001:2015 certification.

ARCHITECTURE

Properties

- Resistance to weather, UV and corrosion
- Qualicoat standart
- Pass water boiling test

Application:

Evaporator, Fan, Waterpump

AIMEX ALUMINIUM INDUSTRI MANDIRI EXTRUSION

CALINDO ALUMINIUM

ALUMAS

HOME APPLIANCE

SHIMIZU CORPORATION SHIMZ

Cosmos®

SEKAI® Pilihanku

Properties:

Thin layers, low cure possible •
High weather resistance •
Good mechanical properties •
Good leveling •

Application:

Refrigeration/Evaporator, Stove

FURNITURE

Properties

- Scratch resistance
- Good Levelling
- Aesthetic appearance and durable

Application:

- Steel Furniture
- Racking systems
- Filling cabinets
- School & Office furniture
- Outdoor benches and tables

INDACHI OFFICE FURNITURE

FUTURA® GERMAN TECHNOLOGY

INNOLA®

LEGANO

vente®

PREMIUM QUALITY | CONSISTENT COLOR & TEXTURE | ADVANCED TECHNOLOGY | TRUSTED BY INDUSTRY LEADERS

AUTOMOTIVE

Properties
- Resist loading
- Gloss and Distinctness of image (DOI)

Application:
- Spring
- Vehicle Frame

VIAR MOTOR INDONESIA

WHAT THEY SAY

COMPARISON OF PAINT RESULTS INDODERCO VS. OTHER BRANDS

TOP SURFACE

Measurement of paint thickness on the **top surface**.

BOTTOM SURFACE

Measurement of paint thickness on the **bottom surface**.

MIDDLE PART

Measurement of paint thickness on the **middle part**.

CONCLUSION

Indoderco paint delivers greater savings, with a thickness of **<100 microns**, and can still cover the same area compared to other brands with a thickness of **>100 microns.**

MORE SAVINGS & MORE EFFICIENT

OTHER BRANDS

Average thickness of other brands

INDODERCO

APPLICATION:
3 Layers

THICKNESS:
60 – 90 Microns

OTHER BRANDS

APPLICATION:
4 Layers

THICKNESS:
120 – 130 Microns

MORE SAVINGS
Lower thickness but still optimal

OPTIMAL COVERAGE
Better covering power for the same area

EFFICIENT & CONSISTENT
Maintained quality with efficient application
